ON ANTISEMITISM

- **Opposing** antisemitism in all its forms, wherever it may be found;
- **Educating** friends and fellow students on my campus about how to identify and condemn the antisemitism that hides in plain sight;
- **Fighting** those who would use opposition to the state of Israel as a thin veil to hide their hatred for the Jewish state; and
- **Supporting** the Jewish Community on my campus and beyond should they ever be victimized by antisemites.
